

# RECYCLED GPPS PELLETS

YASIN POLYMER Recycled GPPS Pellets, collecting from GPPS flakes , is widely used in the application of XPS extruded insulation foam board. YASIN POLYMER Recycled GPPS Pellets can perfectly replace the GPPS virgin material, help saving more energy and protecting our environment. It can match the same quality as virgin GPPS, especially in the compressive strength, density, thickness and thermal conductivity.

## Features

- 100% Recycled Polystyrene
- Transparent
- Cylinders and Spheres Shape
- INTCO Bag with 1000+KG
- Application in XPS Insulation Foam Board

## Specification

Physical	Unit	Value
Density	g/cm <sup>3</sup>	1.04
Melt Index	g/10min	10-18
Ash Content	%	0.3%
Pellet Size	mm	3-6
XPS Foam Board Thickness	mm	5-150

## Applications

Blue

Orange

Pink

Grey
